Enterprise Mobility Management
Manual vs Auto Enrollment

Manual Enrollment (six steps)

1. User calls help desk
2. Help desk asks questions...
3. Help Desk sends EMM enroll info
4. User enrolls device in EMM
5. Network team sets policy exception to access EMM app
6. Network team resets policy exception

EMM (Enterprise Mobility Management)

Auto Enrollment with ForeScout

1. User connects
2. Identified, classified, authenticated
3. Device auto-enrolled in EMM

Read the ForeScout EMM Datasheet
