

Version Information

- Cisco PIX/ASA Firewall Integration Plugin 2.0.2
- Customers with an active Maintenance Contract for their CounterACT devices who are working with the following CounterACT versions can install the plugin:
 - 7.0.0
 - 6.3.4.10
 - 6.3.4.1
 - 6.3.4.0

The latest Hotfix should be installed.

What's New

This version contains important fixed issues. See [Previous Releases](#) for information about previous releases of this plugin. See [How to Install](#) for installation details.

Accessing Updates Made after this Release

New features or fixed issues may be provided after this release is posted. These items will be made available as Beta releases to the upcoming plugin version until the final version is posted on the ForeScout customer support page.

You can access information about Beta releases for the upcoming version at:

<http://updates.forescout.com/support/files/plugins/pix/Updates.pdf>

In addition, you can contact the ForeScout Beta Manager at beta@forescout.com to request the Beta plugin update with the fixes.

Fixed Issues

This section describes issues fixed for this release.

Issue	Description
55410	<p>The Network Group Name field was changed to Network Group Name Prefix.</p> 
55736	<p>The plugin failed to initiate the SSH connection with ASA. This occurred because the plugin did not expect the ASA device to receive the SSH user password in the format of '[username]@[ASA IP address]'s password:'. As a result, the plugin test failed and the plugin did not operate properly.</p>

How to Install

This plugin can be downloaded from the CounterACT Web site.

To download and install the plugin:

1. Navigate to the [Customer Support Plugins page](#).
2. Access the plugin and save it.
3. Login to the Console and select the **Options** icon from the **Console** toolbar.

4. Select the Plugins folder, and then select **Install**.
5. Install the plugin from the location you saved it.

For More Information

Refer to the plugin configuration guide for more information about the plugin. This section describes how to access the guide.

To access the guide:

1. Install the plugin and select it from the Plugins pane.
2. Select **Help** from the plugins pane.
