

DNS Client Plugin 3.0.0

CounterACT[®] Plugin Update
Release Notes

February 6, 2017

Version Information

DNS Client Plugin, version 3.0.0

Supported CounterACT[®] Versions

Customers who work with the following CounterACT version can install the plugin:

- 7.0.0

 *From this release, CounterACT versions earlier than 7.0.0 are no longer supported by this plugin.*

It is recommended to install the latest service pack.

Requirements

An active Maintenance Contract for CounterACT devices is required.

What's New

This version contains important fixed issues. See [Fixed Issues](#).

Installing this release also installs fixes and enhancements provided in previous releases. See [Previous Releases](#) for more information. See [How to Install](#) for installation details.

Fixed Issues

This section describes the fixed issues for this release.

Issue	Description
74159	The plugin Test option did not always return expected results for known IP addresses.
74160 74162 74164	The plugin configuration pane has been improved: user input to configuration fields is validated, and controls conform to standard interface behavior.
70488 72495	This release no longer supports CounterACT versions earlier than 7.0.0. See Upgrade Considerations and Issues .

Working with This Release

This section describes changes in this plugin that affect the way you work with CounterACT.

DNS Queries for Kerberos Authentication

HPS Inspection Engine 10.6.0 supports the Kerberos authentication protocol for Remote Inspection of endpoints. This release of the DNS Client plugin performs reverse DNS queries to support Kerberos authentication.

Track to issues 70486, 72394

Upgrade Considerations and Issues

Read the following sections before you upgrade to the current plugin version.

End of Support for CounterACT 6.3.4.x Versions

From this release, CounterACT 6.3.4.x versions are no longer supported by this plugin. Customers who work with versions earlier than CounterACT 7.0.0 cannot install this release, and will not be able to install future releases of this plugin.

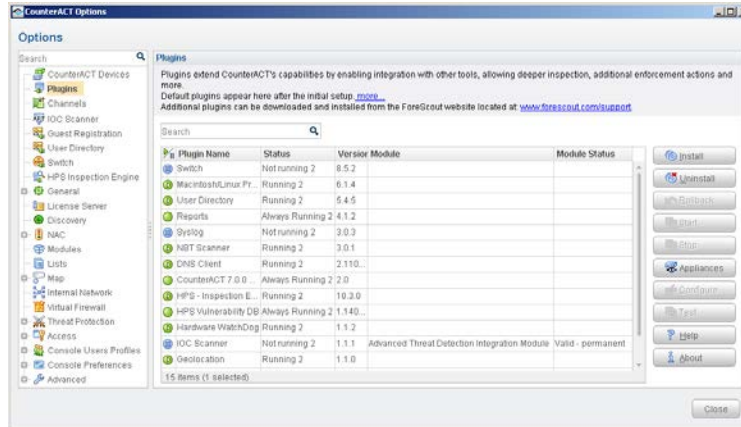

Track to issues 70488, 72495

How to Install

Perform the following steps to download the plugin from the Web site and install it on the Console.

To install the plugin:

1. Navigate to the [Customer Support, Base Plugins](#) page and download the plugin `.fpi` file.
2. Save the file to the machine where the CounterACT Console is installed.
3. Log into the CounterACT Console and select **Options** from the **Tools** menu.
4. Select **Plugins**. The Plugins pane opens.

5. Select **Install**. The Open dialog box opens.
6. Browse to and select the saved plugin **.fpi** file.
7. Select **Install**.
8. An installation or upgrade information dialog box and a license agreement dialog box will open. Accept the license agreement to proceed with the installation.
9. Once the installation is complete, select **Close**. The plugin is listed in the Plugins pane.

More Plugin Information

Refer to the plugin configuration guide for more information about the plugin.

To access the plugin configuration guide:

1. After the plugin is installed, select **Options** from the Console **Tools** menu.
1. Navigate to and select the **Plugins** folder. The Plugins pane opens.
2. Select the plugin from the Plugins pane and then select **Help**.

More Release Information

This section provides information about the following topics:

- [Rollback Support](#)
- [Currently Available Releases](#)
- [Previous Releases](#)

Rollback Support

Under certain circumstances you may want to roll back the plugin to a previously installed version. This may happen, for example, if your system does not operate as expected after the plugin upgrade.

You can roll back this plugin to a previous version.

Plugins on Appliances connected to the Enterprise Manager are rolled back to the selected version. Plugins on Appliances that are not connected to the Enterprise Manager during the rollback are rolled back when the Enterprise Manager next reconnects to the Appliances.

To view rollback versions and perform the roll back:

1. Select **Options** from the Console **Tools** menu.
2. Navigate to and select the **Plugins** folder.
3. In the Plugins pane, select the plugin you want to roll back.
4. Select **Rollback**. A dialog box lists the versions to which you can roll back.
5. Select a version and then select **OK**. A dialog box shows rollback progress.

Currently Available Releases

You can view information about plugin releases supported by specific CounterACT versions. To view, click the following link:

<http://updates.forescout.com/support/files/plugins/dns/Updates.pdf>

New features or fixes may be provided after this release. These items will be made available as Beta releases to the upcoming plugin version until the final version is posted on the ForeScout Customer Support page.

In addition, you can contact the ForeScout Beta Manager at beta@forescout.com to request the Beta plugin update with the fixes.

Previous Releases

Installing this release also installs fixes and enhancements provided in the releases listed in this section. To view Release Notes of previous version releases, see:
