

DNS Enforce Plugin 1.1.6

CounterACT[®] Plugin Update

Release Notes

April 2018

Version Information

DNS Enforce Plugin, version 1.1.6

Supported CounterACT Versions

Customers who are working with the following CounterACT version can install the plugin:

- 7.0.0

It is recommended to install the latest service pack.

Requirements

An active Maintenance Contract for CounterACT devices is required.

What's New

This version contains important fixed issues and known issues. See [Fixed Issues](#) and [Known Issues](#).

Installing this release also installs fixes and enhancements provided in previous releases. See [Previous Releases](#) for more information. See [How to Install](#) for installation details.

Fixed Issues

Issues have been fixed for this release. Details are available at the following location:

- <https://forescout.force.com/support/articles/Problem/Summary-of-DNS-Enforce-Plugin-1-1-5-1-Hotfix-content-including-link-to-the-latest-released-build/p>

Known Issues

This section describes all known issues for this release.

Issue	Description
65609	<p>Under certain circumstances, when HTTP actions are applied to an endpoint that uses the Internet Explorer 10/11 web browser, the user might not be redirected to the targeted web page. Users received a standard browser error message stating that the web page cannot be displayed, without an explanation of what the problem was.</p> <p>This applies to the following actions:</p> <ul style="list-style-type: none">▪  HTTP Redirection to URL▪  HTTP Login▪  HTTP Notification▪  HTTP Localhost Login▪  Start SecureConnector▪  Windows Self Remediation

How to Install

This section describes how to install the plugin.

To install the plugin:

1. Navigate to the [Customer Support, Base Plugins](#) page and download the plugin **.fpi** file.
2. Save the file to the machine where the CounterACT Console is installed.
3. Log into the CounterACT Console and select **Options** from the **Tools** menu.
4. Select **Plugins**. The Plugins pane opens.
5. Select **Install**. The Open dialog box opens.
6. Browse to and select the saved plugin **.fpi** file.
7. Select **Install**.
8. An installation or upgrade information dialog box and a license agreement dialog box will open. Accept the license agreement to proceed with the installation.
9. Once the installation is complete, select **Close**. The plugin is listed in the Plugins pane.

More Plugin Information

Refer to the plugin configuration guide for more information about the plugin.

To access the plugin configuration guide:

1. After the plugin is installed, select **Options** from the Console **Tools** menu.

1. Navigate to and select the **Plugins** folder. The Plugins pane opens.
2. Select the plugin from the Plugins pane and then select **Help**.

More Release Information

This section provides information about the following topics:

- [Rollback Support](#)
- [Currently Available Releases](#)
- [Previous Releases](#)

Rollback Support

Under certain circumstances you may want to roll back the plugin to a previously installed version. This may happen, for example, if your system does not operate as expected after the plugin upgrade.

You can roll back this plugin to a previous version.

Plugins on Appliances connected to the Enterprise Manager are rolled back to the selected version. Plugins on Appliances that are not connected to the Enterprise Manager during the rollback are rolled back when the Enterprise Manager next reconnects to the Appliances.

To view rollback versions and perform the roll back:

1. Select **Options** from the Console **Tools** menu.
2. Navigate to and select the **Plugins** folder.
3. In the Plugins pane, select the plugin you want to roll back.
4. Select **Rollback**. A dialog box opens listing the versions to which you can roll back.
5. Select a version and then select **OK**. A dialog box opens showing you the rollback progress.

Currently Available Releases

You can view information about DNS Enforce Plugin releases supported by specific CounterACT versions. To view, click the following link:

http://updates.forescout.com/support/files/plugins/dns_enforce/Updates.pdf

New features or fixes may be provided after this release. These items will be made available as Beta releases to the upcoming plugin version until the final version is posted on the ForeScout Customer Support page.

In addition, you can contact the ForeScout Beta Manager at beta@forescout.com to request the Beta plugin update with the fixes.
