# About the eyeExtend Connect Module 1.8.1 Release

The Forescout eyeExtend Connect Module provides network connectivity, visibility, and control through the following components:

- [eyeExtend Connect Module 1.8.1: Connect Plugin 1.4.1](#)
- [eyeExtend Connect Module 1.8.1: Data Exchange Plugin 3.9.3](#)
- [eyeExtend Connect Module 1.8.1: Web API Plugin 1.5.3](#)

The eyeExtend Connect Module is a Forescout eyeExtend module that consists of more than one component.

## Module Requirements

Forescout version 8.1.4 or 8.2.1.

Components described in this document may have additional requirements and dependencies.

## Install the Module

This module is automatically installed when you upgrade to Forescout version 8.2.x or perform a Forescout version 8.2.x clean installation. New module releases may become available between Forescout releases.

## Module Component Rollback

The following rollback/upgrade activities are not supported:

- Rolling back a base module (or one of its components) to a version released prior to Forescout 8.2.x.
- Upgrading to a base module version (or one of its components) released with 8.2.x when running a version of the Forescout platform lower than 8.2.x.

If you upgrade to a newer module or component version that becomes available after this release, you may be able to roll it back. When rollback is supported, the Rollback button is enabled in the Console.

Modules/components on Appliances connected to the Enterprise Manager are rolled back to the selected version. Modules/components on Appliances that are not connected to the Enterprise Manager during the rollback are rolled back when the Enterprise Manager next reconnects to the Appliances.

### To roll back the module or component:

1. Select **Options** from the Console **Tools** menu.
2. Navigate to the **Modules** folder.
3. In the Modules pane, select the module or component to be rolled back.

4. Select **Rollback**. A dialog box opens listing the versions to which you can roll back.
5. Select a version and select **OK**. A dialog box opens showing you the rollback progress.

### **Learn More about Module Components**

This guide presents a short description of each module component. Detailed information about each component, such as requirements, features and configuration, is available in related guides.

Information about new and enhanced features as well as fixed, known and upgrade issues is available in the [Forescout Platform and Base Modules Releases Notes](#).

Refer to the relevant configuration guides for detailed information about how to work with and configure components included with this module.

## **eyeExtend Connect Module 1.8.1: Connect Plugin 1.4.1**

The Connect Plugin provides an infrastructure for integrating third-party vendors with the Forescout platform. Use Connect to create third-party vendor integrations quickly. Use the Application Building Guide to build Connect applications.

### **Connect Application Building and Deployment Guide**

Refer to the [Forescout Connect Application Building and Deployment Guide Version 1.4.1](#) for details about this eyeExtend module.

## **eyeExtend Connect Module 1.8.1: Data Exchange Plugin 3.9.3**

The Data Exchange Plugin lets the Forescout platform use the following methods to communicate with external entities:

- SQL<sup>®</sup>, Oracle<sup>®</sup>, and LDAP servers: The Forescout platform queries (pull) and updates (push).
- Web services: The Forescout platform queries external services and receives updates via the CounterACT<sup>®</sup> web service hosted by Data Exchange.

### **Data Exchange Configuration Guide**

Refer to the [Forescout Data Exchange Configuration Guide Version 3.9.3](#) for details about this eyeExtend module.

## **eyeExtend Connect Module 1.8.1: Web API Plugin 1.5.3**

The Web API Plugin lets external entities communicate with the Forescout platform using simple, yet powerful web service requests based on HTTP interaction. Web API provides web service functionality.

### **Web API Configuration Guide**

Refer to the [Forescout Web API Configuration Guide Version 1.5.3](#) for details about this eyeExtend module.
