Version Information

This release contains Microsoft Knowledge Base issues published since the last release, and includes updates through November 16, 2020. See Vulnerability Updates.

About the Database

The Windows Vulnerability Database (DB) is a Content Module that makes Vulnerability Updates available to the Forescout platform soon after they are released from Microsoft. The Forescout platform pushes vulnerability update information provided in this update to Windows endpoints to resolve the Microsoft Vulnerabilities or Microsoft Vulnerabilities Fine-tuned properties.

Module Requirements

This module requires one of the following releases:

- Forescout 8.2.1
- Forescout 8.2.0
- Forescout 8.1
- CounterACT 8.0
- CounterACT 7.0.0 - It is recommended to install the latest service pack.

Supported Windows Operating Systems and Other Products

For information about the vendor models (hardware/software) and versions (product/OS) that are validated for integration with this Forescout component, refer to the Forescout Compatibility Matrix.
Vulnerability Updates

This release adds the following Microsoft Knowledge Base items to the Windows Vulnerability DB.

Installing the Module

This section describes how to install new releases of the module.

- Installing the Module on CounterACT 7.0.0
- Installing the Module on CounterACT 8.0
- Installing the Module on Forescout 8.1, 8.2.0, or 8.2

Installing the Module on CounterACT 7.0.0

Follow this procedure to install in environments that run CounterACT 7.0.0:

To install the plugin:

1. Navigate to the Product Updates Portal, Base Plugins page and download the plugin .fpi file.
2. Save the file to the machine where the CounterACT Console is installed.
3. Log into the CounterACT Console and select Options from the Tools menu.
5. Select Install. The Open dialog box opens.
6. Browse to and select the saved plugin .fpi file.
7. Select Install.
8. An installation or upgrade information dialog box and a license agreement dialog box will open. Accept the license agreement to proceed with the installation.
9. Once the installation is complete, select Close. The plugin is listed in the Plugins pane.

Installing the Module on CounterACT 8.0

Follow this procedure to install the module in environments that run CounterACT 8.0:

To install the module:

1. Navigate to one of the following ForeScout download portals, depending on the licensing mode your deployment is using:
   - Product Updates Portal - Per-Appliance Licensing Mode
   - Customer Portal, Downloads Page - Flexx Licensing Mode

   To identify your licensing mode, select Help > About ForeScout CounterACT... from the Console.
2. Download the module .fpi file.
3. Save the file to the machine where the CounterACT Console is installed.
4. Log into the CounterACT Console and select Options from the Tools menu.
5. Select **Modules**. The Modules pane opens.

6. Select **Install**. The Open dialog box opens.

7. Browse to and select the saved module `.fpi` file.

8. Select **Install**. The Installation screen opens.

9. Select **I agree to the License Agreement** to confirm that you have read and agree to the terms of the License Agreement, and select **Install**. The installation will not proceed if you do not agree to the license agreement.

   - The installation will begin immediately after selecting Install, and cannot be interrupted or canceled.

   - In modules that contain more than one component, the installation proceeds automatically one component at a time.

10. When the installation completes, select **Close** to close the window. The installed module is displayed in the Modules pane.

   - Some components are not automatically started following installation.

**Installing the Module on Forescout 8.1, 8.2.0, or 8.2.1**

Follow this procedure to install the module in environments that run Forescout 8.1:

**To install the module:**

11. Navigate to one of the following Forescout download portals, depending on the licensing mode your deployment is using:

   - **Product Updates Portal** - **Per-Appliance Licensing Mode**
   - **Customer Portal, Downloads Page** - **Flexx Licensing Mode**

   To identify your licensing mode, select **Help > About ForeScout** from the Console.

12. Download the module `.fpi` file.

13. Save the file to the machine where the Console is installed.

14. Log into the Console and select **Options** from the **Tools** menu.

15. Select **Modules**. The Modules pane opens.

16. Select **Install**. The Open dialog box opens.

17. Browse to and select the saved module `.fpi` file.

18. Select **Install**. The Installation screen opens.

19. Select **I agree to the License Agreement** to confirm that you have read and agree to the terms of the License Agreement and select **Install**. The installation cannot proceed unless you agree to the license agreement.
The installation begins immediately after selecting Install and cannot be interrupted or canceled.

In modules that contain more than one component, the installation proceeds automatically one component at a time.

20. When the installation completes, select Close to close the window. The installed module is displayed in the Modules pane.

Some components are not automatically started following installation.

Additional Forescout Documentation

- Forescout Help Tools

Documentation Downloads

Documentation downloads can be accessed from the Technical Documentation Page, and from one of two Forescout portals, depending on which licensing mode your deployment is using.

- Per-Appliance Licensing Mode – Product Updates Portal
- Flexx Licensing Mode – Customer Support Portal

Software downloads are also available from these portals.

To identify your licensing mode:

- From the Console, select Help > About Forescout.

Technical Documentation Page

The Forescout Technical Documentation page provides a link to the searchable, web-based Documentation Portal, as well as links to a wide range of Forescout technical documentation in PDF format.

To access the Technical Documentation page:

- Go to https://www.Forescout.com/company/technical-documentation/

Product Updates Portal

The Product Updates Portal provides product and documentation downloads for Forescout platform releases, Base Modules, Content Modules, and eyeExtend Modules. The portal also provides additional documentation.
To access the Product Updates Portal:
- Go to https://updates.forescout.com/support/index.php?url=counteract and select the version you want to discover.

Customer Support Portal
The Downloads page on the Forescout Customer Support Portal provides product and documentation downloads for Forescout platform releases, Base Modules, Content Modules, and eyeExtend Modules. Software and related documentation only appear on the Downloads page if you have a license entitlement for the software.

To access documentation on the Customer Support Portal:
- Go to https://Forescout.force.com/support/ and select Downloads.

Documentation Portal
The Forescout Documentation Portal is a searchable, web-based library containing information about Forescout tools, features, functionality, and integrations.

To access the Documentation Portal:
- Go to https://updates.forescout.com/support/files/counteract/docs_portal/

Forescout Help Tools
You can access individual documents, as well as the Documentation Portal, directly from the Forescout Console.

Console Help Buttons
- Use context sensitive Help buttons to quickly access information about the tasks and topics you are working with in the Console.

Forescout Administration Guide
- Select Administration Guide from the Help menu.

Plugin Help Files
- After the plugin is installed, select Tools > Options > Modules, select the plugin, and then select Help.

Content Module, eyeSegment Module, and eyeExtend Module Help Files
- After the component is installed, select Tools > Options > Modules, select the component, and then select Help.

Documentation Portal
- Select Documentation Portal from the Help menu.
