

Forescout Adoption Expertise Subscription

Highlights

Key Benefits

- ▶ Maximize use case adoption and maturity through continuous engagement
- ▶ Grow the enterprise solution by aligning evolving requirements using Forescout best practices
- ▶ Increase the value of the Forescout environment with a team of consultants that provides consultative and hands-on technical support

Key Features

- ▶ Best practice-based maturity methodology administered by Forescout's team of experts
- ▶ Structured and on-demand engagement to meet specific needs
- ▶ Continuous automation and integration of tools and processes to drive greater efficiencies
- ▶ Forescout-managed health and maturity assessments

Forescout Adoption Expertise Subscription is designed to help customers adopt and mature their Forescout solution to address evolving business needs. This subscription is ideal for advanced use-cases, as well as optimizing visibility, classification, and compliance and supporting customer's enforcement goals. The Adoption resources will evaluate the health of the Forescout solution and recommend expanded capabilities to maximize the value of the investment and implement solutions to meet the customer's security posture goals. Adoption subscription includes engineering and engagement management resources to assist with the planning, evolution, and expansion of the Forescout implementation.

The Package

Forescout technical experts and engagement managers will lead a series of recurring Forescout technical engagements focusing on customer priorities in these areas:

Planning

- ▶ Develop criteria for product adoption and maturity
- ▶ Manage product health and upgrades to ensure customer success
- ▶ Manage customer objectives, priorities and constraints to drive solution outcomes
- ▶ Consult on solution roadmaps to guide customer maturation efforts

Engagement Management

- ▶ Forescout single point of contact throughout the maturity lifecycle
- ▶ Provides oversight and business consultation
- ▶ Assists with technical issues, features and new product introduction

Continuous Technical Engagement

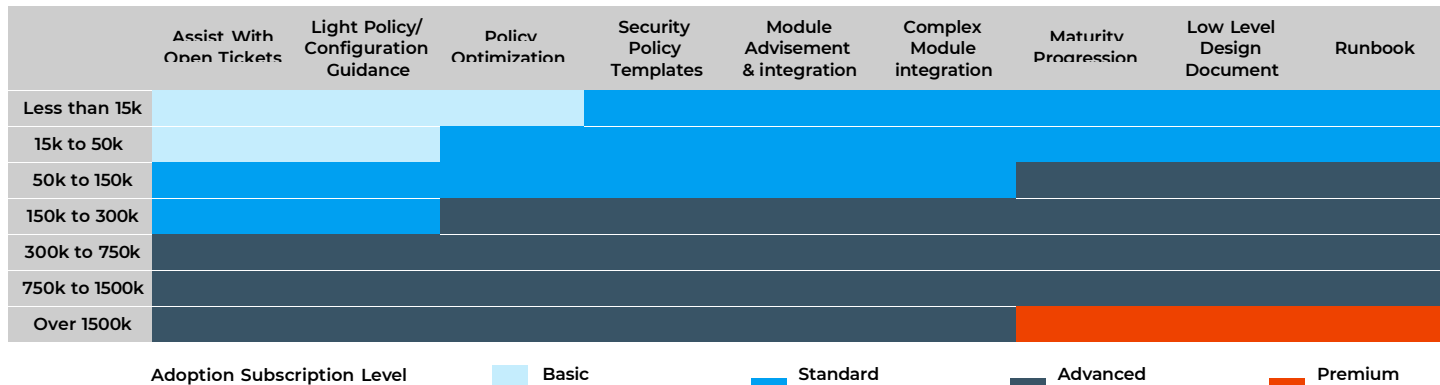

- ▶ Ensure solution alignment with evolving security goals and latest security threats
- ▶ Perform ongoing health checks, policy analysis and optimization to drive adoption
- ▶ Mature the solution to take advantage of the latest Forescout capabilities
- ▶ Offer best-practice-based consultation on customer-specific use case maturity and expansion
- ▶ Provide knowledge transfer to expand product understanding

Optimization

- ▶ Mature the Forescout solution to support the changing environment and use cases
- ▶ Expand device visibility beyond the current scope
- ▶ Advance control and control automation to meet the evolving compliance requirements and business rules
- ▶ Expand orchestration and segmentation efforts to provide more refined or additional cross-platform reporting and response capabilities

Documentation

- ▶ Assist with updating design and as-built documentation
