

Comply-to-Connect

How Can Your Organization Get Started?

OVERVIEW

Defense Information Systems Agency (DISA) awarded to Carahsoft a contract for Forescout licenses to expand cybersecurity across its global enterprise as the initial phase of a multi-million-dollar contract award through 2020. Through a phased approach, DISA chose Forescout technology as the foundation of the DoD's "Comply to Connect" (C2C) initiative, a security framework to provide the highest level of assurance for authentication, authorization, compliance assessment and automated remediation of devices connecting to the DoD Information Network (DoDIN).

SCOPE

Operational NIPR/SIPR/DREN/SDREN

DEVICES SECURED
