

End-of-Life Announcement

Forescout version 8.3

April 13th, 2022

As of April 13, 2022, Forescout has begun the End-of-Life process for Forescout version 8.3:

- Full support will end on September 30, 2023
- Limited support will be available from October 1, 2023 to September 30, 2024
- End-of-Life is September 30, 2024

For definition of Full support and Limited support, please refer to the [Forescout End-of-Life Policy](#). End of life information for other software versions is available [here](#).

Customers can upgrade to Forescout 8.4 and take advantage of several new capabilities to secure their Digital Terrain:

- **Multifactor Risk Scoring:** Understand your exposure by prioritizing the assets that could have the biggest blast radius. Take insights from network behavior, configuration, and compliance and get real-time risk scoring to guide your initiatives.
- **Real-time and continuous classification service:** Realtime classification from our machine learning service with over 50B asset datapoints. Know immediately when a device changes and govern accordingly.
- **Enhanced Upgrade Process:** Reduce downtime and friction to simplify onboarding new features and services.

Our Professional Services team is ready to help if you need assistance upgrading to a supported version of the Forescout platform. Please contact your account team or your preferred channel partner to discuss options that suit your needs.

If you have any questions about this announcement, please contact your Forescout Sales Representative or Forescout Customer Care via the [Forescout Customer Support Portal](#).
