End-of-Sale (EOS) Announcement

April 11, 2016

Effective April 11, 2016, ForeScout is announcing the following packaging and SKU changes for ForeScout modules. The following SKUs are part of this EOL announcement.

1. ForeScout modules are currently packaged as bundles, each of which includes integrations with 3rd party products within a specific market category e.g. ATD, VA, MDM, SIEM etc. Instead of these bundles, ForeScout will now package ForeScout modules separately for each 3rd party product.

   The following SKUs are part of this change and will be replaced by new a la carte module SKUs.
