

MEDICAL DEVICE SECURITY

See and secure your clinical networks and medical devices with a single cybersecurity Platform.

The Forescout Platform continuously identifies, protects and ensures the compliance of all managed and unmanaged cyber assets – IT, IoT, IoMT and OT – without business disruption. It quickly pinpoints, prioritizes and helps you proactively mitigate risks and respond to threats across your clinical and enterprise network.

UNIQUE VALUE

- ▶ Discovers and classifies every device, IT, OT, IoT and IoMT upon connection, evaluates their security posture and helps you segment them appropriately
- ▶ Continuously assesses risks and exposures, and recommends the most effective mitigation actions
- ▶ Detects threats in real-time and provides all the context required for effective incident response
- ▶ Enforces compliance and simplifies reporting through detailed, customizable dashboards and a comprehensive reporting framework
- ▶ Simplifies medical asset lifecycle management by enabling secure onboarding of medical assets and tracking asset utilization over time
- ▶ Automate workflows and tasks via integrations with 200+ security products for asset and compliance management, risk mitigation and incident response.

Forescout secures over 10 million devices across hundreds of healthcare organizations worldwide, supporting:

42,000+

Facilities

417,000+

Hospital Beds

600M

Patients Annually

A PROVEN MEDICAL DEVICE SECURITY SOLUTION

The Forescout Platform offers unmatched scalability to keep pace with the explosive growth and diversity of connected devices across campus, data center and cloud environments:

		
<p>Ability to scale to cover 2+ million devices in a single deployment</p>	<p>Integrations with the leading medical, security and IT management solution providers</p>	<p>3,100+ enterprise customers globally, including 200+ HDOs</p>

“Forescout identifies and classifies the device, injects the information from the SIEMs and moves that device over to a segmented network. This is how we’re getting to Zero Trust.”

Dominic Hart, Manager Information Security Architecture, IT&S Security, RWJBarnabas Health

EMPOWER YOUR HEALTHCARE ORGANIZATION WITH UNMATCHED CYBERSECURITY CAPABILITIES

Leverage Forescout’s innovative solutions to ensure the protection of your medical devices and IoMT landscape. Don’t wait for threats to emerge—proactively secure your network, protect patient data, and maintain operational continuity. Contact Forescout today to learn more about our security Platform and take the first step towards a safer healthcare environment.
