

Orchestrated EoT Security

Powered by Forescout's superior device intelligence and rapid threat response

YOU
WE

need complete device visibility and automated response across your security stack

make your tools work better together to elevate security posture

According to Gartner, "The requirement for automation, orchestration and integration across security domains will continue to grow as the complexity of security solutions increase and the skills gap persists."

Top Security and Risk Management Trends, Gartner

Let us help you with automation, orchestration and integration

Share Device Context

- True up CMDB and synchronize device properties bi-directionally
- Provide real-time device context to SOC for incident correlation and prioritization

Automate Workflows

Initiate On-Connect Workflows

- Trigger real-time vulnerability scans for transient devices at connection time
- Initiate patching and security updates to reduce attack surface

Assess Security Posture

- Verify endpoint agents are functional, identify devices with risks and IoCs
- Detect stale or illegitimate privileged accounts on connecting devices

Accelerate Response Actions

- Contain, quarantine or block vulnerable, compromised and high-risk devices
- Initiate policy-based mitigation and remediation actions for incident response

EoT Security Platform with a Vast Ecosystem of Integrations

And many more...

See how our customers are leveraging automation, orchestration and integration with Forescout

"In addition to being vendor agnostic, the Forescout solution is quick and easy to implement and provides outstanding visibility, compliance and classification capabilities in real time. Plus it integrates easily with other systems in our organization."

PHIL BATES
CHIEF INFORMATION SECURITY OFFICER FOR THE STATE OF UTAH

"Whether the device is moved to China or Germany, Forescout finds it and the (Palo Alto Networks) firewall knows what to do. What was once an ongoing, almost impossible manual task is now completely automated."

JOSEPH CARDAMONE
SR. INFORMATION SECURITY ANALYST AND NA PRIVACY OFFICER

"When we start enriching data from other tools with accurate, real-time data from Forescout, our cybersecurity team is able to make data-driven decisions with confidence. It allows me to sleep at night."

BILAL KHAN
CHIEF TECHNOLOGY AND SECURITY OFFICER
