

## ForeScout Named One of Forbes Top-100 Cloud Companies of 2016

**San Jose (Sept. 7, 2016)** – ForeScout Technologies, Inc., a pioneer in agentless cybersecurity, was today named to the first-ever Forbes 2016 Cloud 100. Developed in partnership with Bessemer Venture Partners, the list represents the definitive top-100 private cloud companies in the world. To view the list, visit <http://www.forbes.com/cloud100>, it will also appear in the October 4, 2016 issue of *Forbes* magazine.

“The cloud represents the next evolution of the enterprise. Like any advancement there is huge opportunity, but also inherent risk,” said Michael DeCesare, ForeScout President and CEO. “As customers transition to the cloud, they need to ensure the same level of visibility and control as they have in their own on-premise networks. Being named to the Forbes Cloud-100 list is a testament to the investment ForeScout has made in building a robust platform that evolves to fit the ever-changing needs of our customers where they relate to cloud and Internet of Things (IoT) security.”

“Cloud companies are revolutionizing how businesses reach their customers today from digitizing painful old processes to allowing them more time to focus on what they really care about—what makes their products unique,” said Forbes editor of the Cloud 100 list Alex Konrad. “Inclusion in the Forbes 2016 Cloud 100 list recognizes a company for its financial growth and excellence as recognized by customers and peers.”

“These are the companies to watch!” said Byron Deeter, a leading cloud investor and partner at Bessemer Venture Partners. “The Forbes Cloud 100 companies represent the very best private companies in cloud computing. We will see big IPOs and category killers emerge from this list as the cloud computing continues to propel the trillion-dollar software industry.”

### Methodology

The first-ever Forbes 2016 Cloud 100 list profiles the world’s top-tier private companies leading the cloud technology revolution, plus twenty rising stars within the field. With advancements in software, cloud security, or platform development, these companies are redefining the future for all industries and sectors.

Forbes, in partnership with Bessemer Venture Partners, received hundreds of submissions to identify the most promising private companies in cloud. The Forbes 2016 Cloud 100 was selected by a panel of judges representing leading public cloud companies, using qualitative and quantitative data submitted by nominees, along with publicly available third-party data sources.

### Recognition

Every company named to the Forbes 2016 Cloud 100 is recognized in print and online by Forbes, and Forbes’ partners Bessemer Venture Partners and Salesforce Ventures. The companies also receive physical awards and digital badges signifying their inclusion on this exclusive list, as well as an invitation to the celebratory Cloud 100 Awards Dinner, hosted in San Francisco by Forbes, Bessemer Venture Partners and Salesforce Ventures.

### **About ForeScout Technologies, Inc.**

ForeScout Technologies, Inc. is transforming security through visibility. ForeScout offers Global 2000 enterprises and government organizations the unique ability to see devices, including non-traditional devices, the instant they connect to the network. Equally important, ForeScout lets you control these devices and orchestrate information sharing and operation among disparate security tools to accelerate incident response. Unlike traditional security alternatives, ForeScout achieves this without requiring software agents or previous device knowledge. The company’s solutions integrate with leading network, security, mobility and IT management products to overcome security silos, automate workflows and enable significant cost savings. As of January 2016, more than 2,000 customers in over 60 countries improve their network security and compliance posture with ForeScout solutions.
